

Services offered by A Wrinkle in Time

INJECTABLE SERVICES

BOTOX injections soften lines in the area of the frown line between the brows also known as the "Glabella," forehead, and the "crows feet." BOTOX can also be used to soften the "bunny lines" on the bridge of the nose, lines around the mouth, the orange peel appearance of the chin, and prominent bands in the neck.

BOTOX is measured, and subsequently priced in units. Approximate units per area and cost are as follows:

Glabella	20 - 30 units
Crow's Feet	12 - 20 units
Forehead	10 - 20 units
Bunny Lines	6 - 12 units
Mouth Lines	4 - 10 units
Chin	8 - 10 units
Neck Bands	20 - 60 units

Price/unit of BOTOX up to 30 units is \$12/unit
 Price/unit of BOTOX from 30 - 50 units is \$11/unit
 Price/unit of BOTOX from 50 + units is \$10/unit

INJECTABLE LINE FILLERS

Various lasting fillers plump deeper lines in the face and around the mouth. Additionally, fillers can be used to add volume that has been lost over time in areas such as the cheeks, in the lips, even to the skin of the hands. These fillers are biocompatible and the variety of fillers allows customization for different areas of the face.

Juvederm Ultra	\$650/syringe
Juvederm Ultra Plus	\$650/syringe
Juvederm Voluma	\$800/syringe
Juvederm Volbella	\$730/syringe
Revanesse Versa	\$550/syringe

INTENSE PULSED LIGHT & LASER SERVICES

The latest technology for facial rejuvenation combines Intense Pulsed Light with LASER to treat all layers of skin for maximum results.

• **Intense Pulsed Light** in the form of "Photo-rejuvenation" penetrates superficially (up to .4mm) to treat vascular (spider veins) and pigmented lesions (sun spots). This improves the tone of the skin of the face, neck, décolleté, etc.

Intense Pulsed Light Pricing:

Face	\$400/Treatment
Neck	\$300/Treatment
Décolleté	\$500/Treatment
Hands	\$200/Treatment
Arms	\$500/Treatment

Save 20% when purchasing 3 or more treatments

• **CO2 Fractional LASER Resurfacing** is the most corrective of LASER treatments for sun damage and wrinkles, with less downtime than traditional LASER resurfacing techniques. Fractional skin treatments deliver light in deeply penetration micro beams of thermal damage, while leaving healthy tissue surrounding these areas. This stimulates a rapid healing response to form healthy, new tissue, yet in the long term stimulates collagenesis for firmer, more elastic skin.

CO2 Fractional Resurfacing Pricing:

Peri-orbital	\$500
Peri-oral	\$500
Full Face	\$1000
Neck	\$500
Décolleté	\$1000
Hands	\$500

Save 20% when purchasing 3 or more treatments

These treatments can be performed separately or in combination for the most synergistic and effective skin rejuvenation.

SPECTRUM LASER SERVICES

Spectrum LASER is a multi platform device that performs a variety of functions:

• **Erbium Yag LASER Skin Resurfacing** uses a less invasive approach for treating superficial wrinkles and sun damaged skin. The Erbium Yag can be used on the face, neck, and décolleté.

Erbium Yag Skin Resurfacing Pricing:

Face	\$600/Treatment
Neck	\$400/Treatment
Décolleté	\$600/Treatment
Arms	\$700/Treatment

Other areas priced on request

• **ND Yag 1064** diminishes the appearance of smaller veins in the face and on the legs. The LASER is quick and effective for most individuals.

\$100/per 15 minute session

• **Q-switched 1064** can effectively remove an array of tattoo ink colors with minimal risk.

\$150/4 x 4 size treatment area

• **Intense Pulsed Light** reduces the appearance of vascular and pigmented lesions (sun spots) and diminishes the bacteria associated with Acne, greatly improving the appearance of Acne prone skin.

See Intense Pulsed Light Pricing

• **Acne Reduction Treatment with IPL**
 \$100/Treatment

810 DIODE LASER & INTENSE PULSED LIGHT HAIR REMOVAL

Permanent hair reduction is achieved in up to 6-8 treatments spaced at specific time intervals (based on which area of the body is being treated). Maintenance treatments may be required periodically thereafter.

Save 10% on a package of 4 and 20% on a package of 8 treatments

Hair Removal Pricing:

Upper Lip	\$50	Forearms	\$200
Chin	\$50	Upper Arms	\$200
Cheeks	\$100	Full Arms	\$400
Nose	\$50	Chest	\$300
Full Face	\$200	Abdomen	\$200
Neck/Front	\$100	Full Chest	\$500
Neck/Back	\$100	Shoulder	\$300
Bikini/Regular	\$150	Mid Back	\$300
Bikini/Thong	\$175	Lower Back	\$300
Bikini/Extended	\$200	Full Back	\$600
Underarm	\$100	Thighs	\$400
Hands	\$100	Lower Legs	\$300
Areolae	\$50	Full Legs	\$700

MICRODERMABRASION combines abrasion and suction to remove dead skin cells from the surface of the skin while stimulating healing blood flow. DERMAPLANE uses a blade to similarly exfoliate the skin. Best results are achieved in a series of 3-6 treatments

\$100/Treatment

Save 10% on a package of 3 or 20% on a package of 6 treatments

Enhance your Microdermabrasion or Dermaplane treatment by adding Ultrasonic delivery of hydrating nutrients, corrective ingredients to lighten skin pigment irregularity, or additional exfoliating botanicals for deeper exfoliation.

Add \$35/Treatment

Damaged Skin: Cause and Effect

Internal causes of damage include chronic use of muscles of expression, dermal thinning, bone loss, and loss of collagen fibers that produce wrinkles and etched lines. Such effects occur with hormonal changes, genetic causes, and chronological aging.

In addition, external causes of damage include environmental hazards such as ultraviolet radiation, wind, smoking and chemical exposure. Years of such exposure can produce wrinkles and pigmentary or skin surface changes. These changes take the form of freckling or dark spots, redness and tiny spider veins, and loss of firmness and elasticity.

Low Impact Skin Rejuvenation

Until fairly recently, only high cost surgical solutions with tremendous downtime were used to address these concerns. A Wrinkle in Time has now introduced a company specializing in low-impact, yet highly effective treatments to dramatically improve skin conditions such as sun damage, wrinkling, spider veins, and unwanted hair.

Because results are best achieved in a series of treatments, A Wrinkle in Time firmly believes in offering such services at affordable rates that allow patients to incorporate these treatments into their regular skin care regimen.

Services offered by A Wrinkle in Time include:

BOTOX and Cosmetic Line Fillers, Intense Pulsed Light, and LASER treatment of sun damage, wrinkles, facial spider veins, and unwanted hair. Skin rejuvenation series include Microdermabrasion and Dermaplane combined with gentle botanicals as well as medical grade specifically formulated "Cosmeceutical" skin care.
